Subject: 9/11 request

Hi Tom,

At approximately 2:30 PM, Jake Adelman, AGL-505.3, called Joe and asked that we fax the logs ref AAL77 by 2:45 PM and then fax anything reference law enforcement calling about an A/C down. I faxed the logs immediately. Tony Ferrante called me and asked if John Thomas or Bill Orr were still here. I shared that they would both be in tomorrow morning. Mr. Ferrante said that what he wanted the logs for and to talk to TO/ZX about was that an Operations Manager called the WV State Police reference downed aircraft. He wanted the response. Bill came in later (although I did try to locate him) and said he didn't remember. I checked TO's personnel statement. It refers to the call but not to the response. I faxed the log of calls from the AMIC/TMU positions sent to us by the HQ ACC AOS/AFRC (United States Air Force Rescue Coordination Center) - 5 pages. It's possible that what he wants is in there. I did not see the specific answer because it was somewhat coded.

Scott K. earned 1 hour credit hours (from 3-4 PM). He was kind enough to stay and be a second pair of eyes. (Isn't there something in writing that if you see any documents reference 9/11, that you become a permanent QA employee??)

I talked to Mr. Ferrante again and he seems to think (at this moment in time) that he has what he needs.

For reference, FAX for Jeff Myers is 202-267-7389. Phone # for Tony Ferrante is 202-267-9119.

Have a great day,

Renea Adkins
